Ready to Get the Most Out of DRM?

Start out on the right foot by enrolling in our Dependable Rights Manager (DRM) Classroom Training.

Designed to help you work *easier*, *faster* and *smarter*, DRM Classroom Training features courses that cover basic and advanced system administration, deployment and troubleshooting topics. Each course is led by a trained instructor guiding students through a series of discussions and hands-on exercises, including:

- Company, agent and contact management
- Contract administration
- Income statements
- Invoicing and payments
- G/L Journal transactions
- The product approval process

Sign Up Today to Take Advantage of These Great Tools

- Learn how to quickly navigate DRM.
- Hands on experience to reinforce your efficiency on the system.
- Save time with helpful shortcuts and troubleshooting tips.
- Maximize your effectiveness with expert guidance.
- Free comprehensive training workbook featuring detailed instructions and examples.

Classroom Training Courses and Topics

Setting Up Companies and Contracts (2 Days)

- Set up and manage companies, agents and contacts inside DRM.
- Configure and administer your contracts and contract data, including SKUs, granted rights, guarantees, provisions, thresholds and more.
- Discover the reports available to you for analyzing and graphing your contract data.

Approval Workflow and Content Manager (1 Day)

- Practice setting up an approval process for all steps in your workflow (concept, pre-production, production, packaging, etc.).
- Learn how to track relevant information supplied by a licensee back to the rights in the contract.
- Discover how you can collaborate on and share artwork, style guides, manuals and more with your licensees and third-parties.

Financials and Income Statements (2 Days)

- Learn the process for uploading your income statements using the standard template, as well as for creating income statements manually.
- Understand your G/L Journal and practice transactions, including generating invoices and entering payments.
- Discover the reports available to you for analyzing your financial data.
